Solar Power
for Ellsworth and Maine

The public is invited to a program on solar power for the Ellsworth area, presented by **Emmie Theberge** of the Natural Resources Council of Maine (NRCM) and a representative from **ReVision Energy**, a leading installer of photovoltaic systems in Maine.

Friday, March 25 from 7:00-8:30 p.m.
Unitarian Universalist Church of Ellsworth (121 Bucksport Road, Ellsworth)

One important thing we can to do reduce our dependence on fossil fuels in this era of increasing threats from climate change is to invest in solar power. Investing in solar is not only good for the planet but it creates more jobs and helps the economy of Maine.

Learn about options for investing in solar power at your home or in your community, and about how you can help move Maine forward with new solar policies. Exciting new legislation (LD 1649) in Augusta awaits action and needs your help. There are lots of ways to get involved! See www.nrcm.org for information.

This event is free and open to the public.

Co-sponsored by Peace and Social Action Committee and the Green Team of the UUCE and by Community Union of Hancock County
